

# WorkspaceBkColor

The background color of the unoccupied space in the table.

## Usage

```
Set_Property(OLECtrlEntID, "OLE.WorkspaceBkColor", Color)
```

## Values

*Color* can be any [Color](#) value.

**Default:** "3DFace" System Color

## Remarks

The WorkspaceBkColor property establishes the color of the space unoccupied by cells.

## Example

```
// Set the workspace background color to white
Set_Property(@Window:".OLE_EDITTABLE", "OLE.WorkspaceBkColor", RGB(255, 255, 255) )

// Set the workspace background color to that used by data windows
Set_Property(@Window:".OLE_EDITTABLE", "OLE.WorkspaceBkColor", "Window" )
```
