

Get_Dialog_Parms Function

WARNING: This is an obsolete function. Use [Get_Dialog_Info](#) instead.

Description

Returns a block of parameters associated with this dialog box.

Syntax

```
parameters = Get_Dialog_Parms (dialogname, owner)
```

Parameters

The Get_Dialog_Parms function has the following parameters.

Parameter	Description
<i>dialogname</i>	Specify a valid window identifier.
<i>owner</i>	Pass the identifier of the owner for the dialog box specified in <i>dialogname</i> . Can be null if dialog box exists.

The entire block of parameters is returned by this function, in an @FM-delimited array of initparameter, ownparameter, and outparameter.
