

# Set Printer MOVEPAGES

## Description

The MOVEPAGES message is used to move a page or range of pages to the front of a report.

## Parameters

| Parameter  | Type    | Description of Fields   | Default |
|------------|---------|---|---------|
| Start_Page | Integer | The starting page number to be moved.                             | Null    |
| End_Page   | Integer | The ending page number to be moved.                               | Null    |
| To_Front   | Boolean | If true will move the specified range to the front of the report. | False   |

When moving a single page, the Start\_Page and End\_Page parameters should contain the same value.

## Example

```
* The following example shows how to use the MOVEPAGES message.

declare function Set_Printer

* Move Pages 5 and 6 to the front of the report.
start_page = 5
end_page = 6
to_front = 1

stat = Set_Printer("MOVEPAGES",start_page,end_page,to_front)

* Move Page 7 to the back of the report.
start_page = 7
end_page = 7
to_front = 0

stat = Set_Printer("MOVEPAGES",start_page,end_page,to_front)

* Move Page 7 to the front of the report.
start_page = 7
end_page = 7
to_front = 1

stat = Set_Printer("MOVEPAGES",start_page,end_page,to_front)
```
