

# SRP\_Get\_Fonts

Gets the fonts installed on the machine.

 Added in 2.1.10

## Syntax

```
Result = SRP_Get_Fonts()
```

## Returns

An @FM delimited list of font family names.

## Remarks

The SRP\_Get\_Fonts method returns an @FM delimited list of all the fonts installed on the current machine.

## Example

```
// Get the fonts installed on the machine
Fonts = SRP_Get_Fonts()
```
