

SRP_FastArray GetVariable

Converts an SRP Fast Array back into a BASIC+ dynamic array.

Syntax

```
Array = SRP_FastArray( "GetVariable", Handle)
```

Returns

The equivalent BASIC+ dynamic array.

Parameters

Parameter	Description
Handle	Handle to an existing SRP Fast Array (REQUIRED)

Remarks

The GetVariable service converts an SRP Fast Array back into a BASIC+ dynamic array.

Examples

```
// Convert the fast array back into a dynamic array
Array = SRP_FastArray( "GetVariable", Handle)
```
