

SRP_List Count

Gets the number of elements in the list.

Syntax

```
Count = SRP_List("Count", Handle)
```

Returns

The number of elements in the list

Parameters

Parameter	Description
Handle	Handle to an existing SRP List (REQUIRED)

Remarks

The Count service gets the size of the list. The count includes blank elements. In other words, this method tells you the number of elements that will results when you call [GetVariable](#).

Examples

```
// Create an empty list
Handle = SRP_List("Create")

// Set 1 element at index 7
SRP_List("SetAt", Handle, 7, "SRP")

// If we get the count, it will be 7, even though the first 6 are blank
Count = SRP_List("Count", Handle)

// Play nice with memory
SRP_List("Release", Handle)
```
