

SRP Array Raw Methods

SRP_Array is the newer and more convenient way to manipulate BASIC+ dynamic arrays. For older systems, you can view documentation on the original methods below.

Method	Description
SRP_Clean_Array	Cleans an array by removing blank elements and/or removing duplicates.
SRP_Join_Arrays	Logically combines two arrays
SRP_Reorder_Array	Repositions elements in a dynamic array into any explicit order.
SRP_Rotate_Array	Changes a LIST formatted dynamic array into an ARRAY formatted dynamic array or vise versa.
SRP_Sort_Array	Sorts a dynamic array.
