

Promote the Event

When you save your forms, OpenInsight checks for promoted events and includes any it finds in the compiled version of the form. By default, some events are already promoted, like the [CLOSE event](#) of a form. The others you need to set yourself. To do this you use the **EVENTDESIGNER** form. There are three ways to launch **EVENTDESIGNER**:

- From the Application Manager drill down on **OpenInsight Executables, Form Executables** and Shift Double Click on **EventDesigner**
- start the System Monitor and type **EXEC EVENTDESIGNER**
- from the **UI Workspace**, select **Tools-Design Events** from the menu

Click on the top left button, which is for Window Events. The list of window events display. Scroll down to **GOTFOCUS** in the **Event Name** column, and change **Enforce** to **Yes**. The following displays:

The Event Designer window displays a table of events. The 'GOTFOCUS' event is selected, and its 'Enforce' status is set to 'Yes'.

Event Name	Event Parameters	Enforce
DSODELETE	DSOld	No
DSOEXECUTE	DSOld	No
DSOFIRST	DSOld	No
DSOINSERT	DSOld,InsertBefore,InitRow	No
DSOINSTANCE	DSOName,XOName,DSHandle,XC	No
DSOLAST	DSOld	No
DSONEXT	DSOld,Circular	No
DSOPREV	DSOld,Circular	No
DSOROLLBACK	DSOld	No
DSOSETFILTE	DSOld	No
DSOSETPARA	DSOld,ParamNo,ParamVal,CtrlCoo	No
GOTFOCUS	PrevFocusID	Yes
HELP		No
HSCROLL	Value	No

By enforcing the event, we have told OpenInsight to check for promoted event code.
