

SRP_Unicode_OIPI_Services Disable

Sets all OIPI calls to be routed to standard OIPI.

Syntax

```
SRP_Unicode_OIPI_Services("Disable")
```

Parameters

None

Remarks

The Disable service sets a flag that tells SRP Unicode OIPI to route all [GET_PRINTER](#) and [SET_PRINTER](#) calls to the original GET_PRINTER and SET_PRINTER routines.

Example

```
// Turn off SRP Unicode OIPI  
SRP_Unicode_OIPI_Services("Disable")
```
