

Dates

The currently visible dates.

Usage

```
Dates = Get_Property(CtrlEntID, "OLE.Dates")
```

Values

Multivalued structure describing the currently visible dates.

Position	Name	Description
<1>	Begin Date Time	The earliest visible date and time.
<2>	End Date Time	The last visible date and time.

Remarks

Added in 4.2

The Dates property returns the dates visible to the user.

This property is Read Only.

Example

```
// Get the currently visible dates  
Dates = Get_Property(@Window:".OLE_CALENDAR", "OLE.Dates")
```
