

SRP_Is64Bit

Determines if OpenInsight is running 32-bit or 64-bit.

Syntax

```
Result = SRP_Is64Bit()
```

Returns

1 if running in 64-bit, 0 if running in 32-bit.

Remarks

Add in 2.2.6

SRP_Is64Bit allows you to determine at runtime whether or not you are running in 64-bit (OI 10 and later) or in 32-bit (OI 9 and earlier).
